Excerpt: . . It-terms. delivers factored transfer function elements of all kinds denominators, numerators, coupling numerators, etc. Thus, vehicle equations of motion, which typically involve second-order terms, are handled in naturally in the form which they were originally derived. Control system elements are also readily incorporated into the same structure. J LSMPs outputs include cell displays and matrix listings, transfer function displays, frequency response Bode plots, and single-or multi-trace transient response plots. LSMP can provide transfer function files in Program CC format. While LSMPs specialized features make it the primary vehicle modeling task at STI, Program CC state space modeling capability is more than adequate for the present FCX development. C. PRELIMINARIES While theory and associated computational means are an important of aspect the design methodology, the lore, knowledge and experience elements, which guide and govern applications are critical features. This material is presented here as summary tables, outlines, recipes, empirical data, lists, etc. ,...
