*****.Abortion may be one of the most divisive issues of our time. This is not without reason. If abortion is really killing human lives, then we are killing millions of babies each year and calling it good. If abortion does not kill human lives, then women are being restricted from a potentially helpful medical procedure. It stands to reason then, that we should do everything in our power to determine whether or not abortion really does kill babies - and just to be safe, we should always err on the side of caution when potentially dealing with innocent lives. We will consider questions of life, value, and many of the political arguments made against pro-life positions. The discoveries are startling.
